

To Our Valued Customers:

As an Emergency Services Company, we want you all to know that we are open and here to help in this time of need. Our IICRC Certified Cleaning Team is available for cleaning and applying disinfectant. Our plant-based EPA approved cleaning agents can kill over 99.99% of germs, including Enveloped and Non-Enveloped Viruses. Our Team can also provide HEPA vacuuming and Negative Air Machines (Air Scrubbers) that can reduce the levels of airborne particulates.

If you have an emergency and need our services, please know that we will be taking the following precautions when entering your home to keep you and your family safe:

- Practicing social distancing by maintaining a safe 6 foot distance from any occupants.
- Wearing proper Personal Protective Equipment, including coveralls, shoe covers, gloves, and masks.
- Wiping down surfaces before and after performing any work or inspections.

If you need your living or working spaces professionally cleaned, or have an emergency, please contact us.
